time Lord Nelson was killed."

Having a few spare moments at my ommand, and the permission of the editor, I shall attempt to address a few notes to the teachers of Bollinger county in particular, and all the readers of Tan

Patse in general.

The subject of this article is "Higher Education," and, owing to the crowded columns of our paper, shall furnish same.

We are living in a con one in which we are chiefly concer about the pecuniary value of all we un-dertake. In fact this, in a measure, de-termines the character of our education. We are continually impressed, in our ever written. We'll all schools, with these questions; "What iy of Houck's history shall be the character of my education? Shall I not take a business course, rather than complete the work in the high school? Or can I be successful if I neggit" and literary ability lest some special work? Too many anschool, and every one who can, possibly, should spend more or less time in a col-

lege or university before taking up his said that "the man who went thr who specialised." Mr. Schwab takes ust be able to amass an immense for My position is that this is not succe massing great fortunes man's missis

Schwab's ideal man is one who can, a of the country are in a by special training, amass great wealth or call into existence great business en professional rather than a classical and his ideal teacher a man of Rocke feller's qualifications, who would im nother mission in the world.

There is something divine in each in dividual, and I shall attempt in this paper to show that the object in all edution is to develop it. We owe this to ourselves, to humanity and to God.

by God is governed. The sole founda-tion of all things is God. In everything God rules and lives. In God all thi live and move and have their being. Things exist only because God acts in them. The divine that acts in each

The destination of all things is, by nfolding, to set forth their ess which is the divine that lives in then hus to reveal God in and by what outward and transitory. The special estination of man, as a being endos with perception and reason, is to become fully and clearly conscious of his own the divine that is him and to
